LUMIX DMC-FT30

The latest Lumix tough camera is small enough to pop into a pocket, but rugged enough to handle a trip to the beach. The 16-megapixel camera with 4x zoom is waterproof to 8m and offers some manual controls, such as light sensitivity from ISO 100 to ISO 1600, but it really suits those who want to point and shoot. It’s important to read the manual, which urges you to slip on the supplied silicon cover for beach trips to ensure sand doesn’t damage key components. Also, after you take it for an ocean swim, you should soak it in freshwater for 10 minutes.
