SNOW GEAR

**KOMODO HOLLOW FIBRE THERMAL SLEEPING BAG**
Stay warm and comfortable in temperatures as low as -10°C on your next camping or snow trip. This spacious Komodo Hollow Fibre Thermal Sleeping Bag is filled with a double layer of hollow fibre, providing exceptional insulation and a soft feel. What’s more, it’s made to last, with a Ripstop polyester outer shell that can endure rough travels. RRP: $39 (220cm x 80cm) with free shipping. See www.kogan.com/au

**OAKLEY AIRBRAKE PRIZM GOGGLES**
Oakley’s new PRIZM lenses boast a revolutionary technology that dramatically enhances contrast and visibility. Specifically, the technology improves the eye’s ability to perceive detail in the snow, such as contours and texture, so users can ski or ride with more confidence. PRIZM also works over a much wider range of light conditions than a traditional snow lens, so there is no need to switch lenses as conditions vary through the day. PRIZM is available in three different lens options: Black Iridium, Jade Iridium (pictured), and Rose. RRP: from $339.95. See www.oakley.com.au

**SALOMON MEN’S FREESKI CADABRA PANTS**
These Salomon pants (shown in Bayou Green) feature an advanced Skin Dry 10K waterproof and breathable membrane, polyester face fabric and lining, internal fleece panel, fully taped seams, mesh-lined inseam vents, removable powder skirt, adjustable waist and a relaxed fit. RRP: $299.99. See www.salomon.com/au/

**SALOMON MEN’S FREESKI ZERO JACKET**
This Salomon jacket (shown in Bayou Green) features one discreet internal pocket, one zip-chest pocket, one ski pass pocket, one goggle pocket in mesh and two lateral zip pockets. RRP: $349.99. See www.salomon.com/au/

**BURTON TRICK PONY SNOWBOARD**
For park riders who also love pow, the Burton Trick Pony pushes your abilities into natural terrain with a design driven by Mark Sollors. An evolution of the critically-acclaimed Sherlock, this tweaked true twin extends flat top all the way out to the contact points for stepped up stability and grip from pat-down takeoff to stomped landing. It’s an evolution in Bend that’s not quite rocker or camber to give you better control and ollie power in either direction, while still letting you float effortlessly with a centred stance. Sizes available: 150, 154, 158, 162, 158W, 162W. RRP: $599.95. See burton.com

**ARC*TERYX ATOM LT VEST**
This extremely versatile Coreloft insulated vest (shown in Platinum) functions as an outer layer in cool, dry conditions, or as a mid layer in cool, wet conditions. It features air-permeable side panels to help with thermal regulation during mid- to high-output activities. And the light, soft-face fabric has a DWR finish to repel moisture and good air permeability. The vest also includes two zippered hand pockets and an internal chest pocket. RRP: $169.99. See arcteryx.com
