

Changing the system language on your S5

1. Tap on the **Settings** icon (resembles a cogwheel). Alternately you can access the settings from the Notifications Shade if you prefer.
2. Tap on **Language and Input** (resembles a page with 'A' on it) under the **System** section of the scroll menu.
3. Tap on **Language** at the top.
4. Tap on the language you wish for your Samsung Galaxy S5 to use.

The Samsung Galaxy S5 will instantly start using your selected language. No reboot is required.

Changing the keyboard language on your S5

1. Tap on the Settings icon (resembles a cogwheel). Alternately you can access the settings from the Notifications Shade if you prefer.
2. Tap on **Language and Input** (resembles a page with 'A' on it) under the **System** section of the scroll menu.
3. Tap on the **Gear** icon next to the keyboard you are using and want to change the language on.
4. Tap on the **checkmark box** next to the language you'd like the keyboard to use. Uncheck any languages you do not wish to use. (You may have multiple keyboards enabled at once.)

Note: When using the keyboard, swipe sideways on the space bar in order to swap between keyboards if you have multiple ones selected.
