- Power supply for wireless charger not included

# Assembly & Operation

Assemble the wireless charger.  
Adjust the bracket height, angle and length.

Clean the installation location - rubbing alcohol recommended to sterilise and remove dust.

Install wireless charger on prepared installation location.

Insert micro USB cable into power port and insert USB into car charger (not supplied)  
The LED indicator will turn red and change to blue as it begins charging.

Press the button behind the wireless charger with your index finger.  
Place the mobile phone on the charging surface and clamp the mobile phone in.

The red light indicates standby.  
The blue light indicates charging.  
Red and blue blinking indicates an error. Power off the charger and try again in a minute.
