

Dummy CCTV Security Dome Camera (4 pack) KACAMD4DOMA Quick Start Guide

Thank you for purchasing this simulated security camera. These simulated security cameras have proven to be excellent crime prevention devices. They are being used in many types of businesses, including motels, factories, convenience stores, parking lots, museums, real estate companies, auto dealers, apartments, condos, restaurants, and many others, in addition to residential homes, garages and boat docks.

We suggest that they be mounted in a conspicuous area, high enough from the ground so that they cannot be reached.

We hope you will be pleased with the simulated cameras; and most important, that they might deter any crime problem you may have.

Installation

1. Runs on (2) 1.5v AA batteries (not included).
2. Mounting hardware included for easy installation.
3. Uncover one side of the double-sided adhesive tape (included), paste onto the middle of the camera bottom, then remove the protective paper from the other side of the tape, and paste on the place where you want.
4. Two holes with slot allowing camera to mount on the ceiling or wall. Included (2) Phillips head woodscrews.

Overall dimensions:
Diameter - 12.6cm
Height - 8.8cm

Disclaimer

This simulated camera is intended only as a deterrent. There is no guarantee, either expressed or implied, that this camera will protect or prevent criminal action. The purpose of this simulated camera is to alert anyone of the potential for criminal activity, and presence of these simulated security devices may contribute to the deterrence of crime. It is not recommended that these cameras be used as a total replacement for a real CCTV system.
