# Operation

## Using FM Transmitter Function

1. Plug the Bluetooth FM transmitter into your vehicle's cigarette lighter or power port.
2. Tune your radio to an unused FM frequency, then match the same frequency on the unit with the frequency adjust buttons.
3. **Using a micro SD card:** Insert a Micro SD card containing MP3 files into TF card slot of the unit. It will play and transmit the music automatically.
4. **Using an aux cable:** Plug the provided audio cable into the aux-in port of the unit, and the headphone out port of a phone or other device. When you use this function, high quality music or phone calls will be transmitted from the unit.
5. **Music bass boost function:** Press the bass button to active deeper bass when listening to the music.
6. **Shut down the FM Transmission:** If you don't need the FM transmission temporarily, please press and hold for 3 seconds to turn off, but the charging keeps working.

## Using Bluetooth Function with FM Transmitter

1. When using Bluetooth for the first time, you need to pair your mobile phone with this unit. Activate your mobile phone's Bluetooth function, then search new device. When the mobile phone detects this unit (named "BT77DQ"), connect using the default password "0000".
2. While playing music, when there is an incoming call, the unit will automatically switch to telephone mode so you can answer calls.
3. While playing music, simply press the "BASS" button to enjoy louder and deeper bass.
4. While playing music, press the "BASS" and hold for 2 seconds to switch the modes between Bluetooth and Micro SD card reading.

## Bluetooth Calling

1. Please press  to answer the incoming call or hang up a call.
2. Please press  and hold for 3 seconds during call to reject the incoming call in Bluetooth calling mode.
3. Please press  twice to dial the last number automatically.
4. When making a call, you can only dial a number via your mobile phone, but once the call has connected, you can use the hands-free function.

## Using USB Charger Function

This device has dual USB ports for charging, one port is 2.4A and the other port is the quick charge (QC) 3.0.

### About QC3.0 USB Port

If your mobile supports quick charge, it will charge based on Qualcomm QC 3.0 protocol, DC 3.5-6.5V/3A, 6.5V-9A/2A, 9-12V/1.5A.

If your phone does not support this, it will adjust output accordingly.

### About 2.4A USB Port

This USB ports output maximum is 2.4A. It will detect the phone voltage if not supported and adjust output accordingly.

## ***Specifications***

1	Bluetooth IC	5.0
2	Frequency range	87.6-107.9MHz
3	Frequency stability	±10ppm
4	Product input	12-24V
5	Charger output	5V/2.4A + QC3.0
6	SD card (Maximum capacity)	32GB
7	Music format	MP3/WMA/FLAC
8	Audio input	3.5mm stereo jack
9	FM transmission distance	2m
10	Bluetooth transmission distance	7m
11	Product size	8.66x4.2x18cm
12	Weight	85.7g
13	LED dimension	2 inches
14	Material	ABS and PC
