### Product Checklist

The following items are included:

- Motorised Semi-Auto Soft Bullet Sniper Rifle
- 10 Soft Bullets
- 10 Soft Suction Bullets

### Getting Started

1. Load the Soft Bullets / Soft Suction Bullets into the Bullet Chamber, on either side of the rifle, foam first. Note: only use the bullets designed for the rifle. Do not modify the bullets in any way. Please avoid the removal of the Bullet Chamber. Do not force the Soft Bullets into the chamber – doing so will risk damaging the foam and, as a result, the operation of the rifle.
2. Locate the rifle's Battery Compartment, located just above the trigger. Open the compartment and correctly install 3 x AA batteries. Close and secure the Battery Compartment.
3. To enable use of the rifle's laser sight, access its Battery Compartment, located on the side of the rifle. Open the compartment and correctly install 2 x AA batteries. Close and secure the Battery Compartment.
4. To use the Sniper Sight, flip it to an upright position.
5. Locate the ON/OFF switch. Set the switch to the 'ON' position.
6. Aim the rifle and pull the trigger to fire the Soft Bullets. Note: do not aim at eyes or face.
