Product specifications

Capacity	20,000mAh
Input	12V 1A (max)
Output 1	DC 5V 1.8A(max)
Output 2	DC 12V/16V/19V 3.5A(max)
Operating temperature	-10°C ~ 50°C
Size	175 x 124 x 24.8mm
Weight	646g
AC/DC adapter	Input: 100-240VAC 50/60Hz 0.5A Output: 12V 1A

Usage

Charging the power bank

NOTE: Before first use, please FULLY charge the power bank via the AC/DC adapter.

1. Plug the AC adapter into a wall outlet, then plug the round female pin into the power bank's male input jack.
2. While charging, the LED indicator will flash.
3. When the power bank is fully charged, the 4 LED indicators will stop flashing.
4. Disconnect the AC adapter from the power bank.
5. Press the power button to confirm the power capacity.

Note: If you will not be using the power bank for an extended period of time, we recommend that you fully charge it every 3 months.

LED battery indicator

Press the button to get an indication of the power level.

Charging your device with the power bank

1. Select the correct charging pin for your laptop, mobile phone or device.
2. Connect the tip to the multi-lead.
3. Connect the charging cable to the power bank's output port. If the device to be charged is a laptop, the correct voltage needs to be selected by pressing the power button first. The 5V port is designed for mobile phone charging.
4. Connect the charging cable to your device.
5. When charging has finished, remove the cable from the power bank and remove the tip from the multi-lead, and store them safely for next use.

Care and Safety

- Do not allow the power bank to be immersed in water. It is not waterproof.
- Do not push the power indicator button with excessive force.
- Do not expose the power bank to extreme temperatures.
- Do not open the power bank casing to access the inner workings.
- Do not change or modify the power bank in any manner.
- Clean the power bank with a soft dry cloth. Do not use an abrasive cleaner.
