## **4000 mAh Solar Power Bank**

### **KAPWB40SLRA**

Thank you for purchasing our 4000mAh Solar Power Bank.

It is suitable for charging iPhones, iPads, Android phones, GPS devices, cameras, portable media devices and many other battery operated devices. Built from waterproof, dustproof and shockproof materials, the unit is hardy enough to take with you anywhere. With a built-in lithium polymer battery, it will charge via the powerful 1.2W mono-crystalline solar panel. Also contains an emergency LED torch and dual USB/Micro charging ports.

The green LED indicates the power level.

The blue LEDs will illuminate when the device is charging via a USB device.

Double click the power button to turn the torch on and off.

### **Technical Specifications**

Li-polymer battery

Input: 5V/1A

Output: DC 5V/2x1A

Product Dimensions: 14.3 x 7.4 x 1.2cm

Net Weight: 130g
