Foldable Solar Panel Charger for Smartphones KASLRCHG7WA

The 7W foldable solar panel charger puts the power of the sun in your hands. Energy-saving and environmentally friendly, the charger will keep phones, media players and other electronic devices charged up at your convenience.

Product Checklist

- Foldable mono-crystalline solar panels
- USB output

Getting Started

1. Expose the mono-crystalline solar panels to sunlight for an extended period of time. This will allow the panels to gather energy, which can then be transferred to your battery powered device.
Note: only the panels should be exposed to sunlight, not the device(s) you wish to charge.
2. Connect your device via the USB output. Please equip the USB output with the correct adapter for your device.
3. Your device will indicate when it has been fully charged.

Specifications

- Solar panel peak power: 7W
- Output: 5.5V x 1270mA
- High efficiency: >18%
- Output interface: USB2.0
- Extended size: 480 x 180 x 5mm
- Folded size: 180 x 100 x 30mm
- Weight: 300g
- Colour: Black

Warnings/Disclaimers

- Do not expose the device to moisture. The USB is an electronic component vulnerable to water damage. Exposure to moisture will affect the normal operation, and in some cases, damage your electrical equipment or endanger the user.
- Do not expose the device you wish to charge to direct sunlight. Only the solar panels should be exposed to direct sunlight in order to eventually power the device of your choice.
- Do not disassemble the product.
- Any misuse of the product will void the warranty. In the event of product misuse, Kogan.com is not responsible for damages or injury.
- If you believe any component of the charger has malfunctioned or requires repair, please stop using the charger immediately and do not attempt to repair it yourself. Refer all servicing matters to the Kogan customer support team.
