

# Adjustable Laptop and Tablet Stand with Cooling Fan KASTNCFLTP Quick Start Guide

## Installation

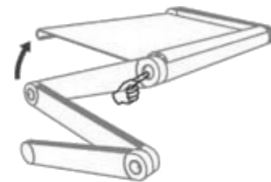

Step One Press the axis switch to adjust the angle of the first leg.

Step Two Press the axis switch to adjust the angle of the second leg.

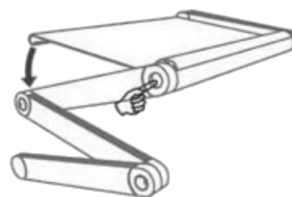

Step Three Press the axis switch to adjust the angle of the table.

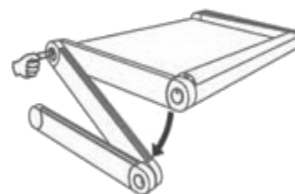

- If you need to adjust any of the angles again, you can simply press the relevant axis switch and adjust the angle.

## Folding Away

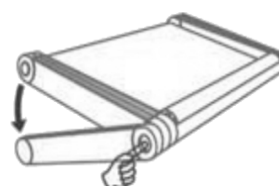

Step One Press the table axis switch and fold the table down so it sits even with the second leg.

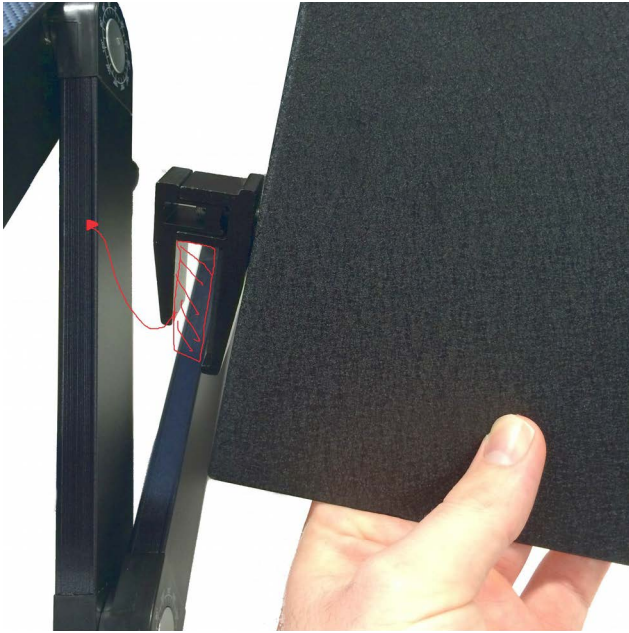

Step Two Press the next axis switch and fold the second leg down to be even with the first leg.

Step Three Press the final axis switch and once all of the legs and the table are aligned, the unit is ready for storage.
