

Virtual Reality Headset for Smartphones KAVRHEADSETA Quick Start Guide

Product Layout

Product Usage

Download and Play Test Video

Please download your preferred VR Viewer app(s) from the Play Store or App Store depending on your operating system (as shown in picture A). Compatibility and availability may vary depending on the functionality of the app.

Ensure that the app supports Left/Right split screen displays (as shown in picture B) and also full-screen display.

How to Use

Gently open the front cover (as shown in picture C). Holding your mobile phone with the screen facing inwards, place the mobile phone securely into the unit and close the front cover (as shown in picture D). If you find that the image is upside down and it isn't automatically corrected by your mobile phone, reopen the front cover and turn the phone up the other way.

Lens Adjustment

As shown in pictures E, F and G, the headset can be adjusted to suit most people. By adjusting the Object Distance via the dial (as shown in picture F), short-sighted users can move the unit closer, removing the requirement for glasses to be worn while using the unit.

By adjusting the Focus Adjustment Dials, you can adjust the focal length for each eye individually.

Virtual Reality Controls

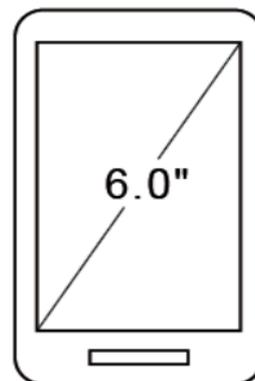

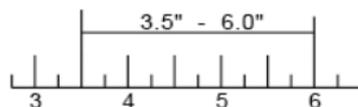

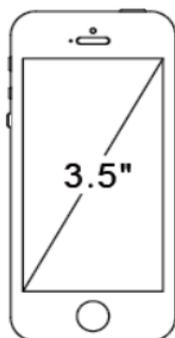

Menus in virtual reality apps can be controlled by shaking your head from left to right as shown in picture H.

Use of this product while your mobile phone is charging is strictly prohibited. Any damage caused by misuse is the responsibility of the user.

To reduce eye strain, it is recommended that the viewing time be no longer than 30 minutes.

Smartphone Size Compatibility

These virtual reality glasses are compatible with 3.5" smartphones up to 6.0" smartphones.

Enjoy Anywhere

With these glasses, you can feel free to enjoy 3D movie or gaming fun anywhere!

Users must take care to NEVER use this device while driving, operating machinery or performing any other tasks that require ANY degree of their attention. This device is fully immersive, so ensure you are in a safe, secure location prior to using the device.

Kogan.com is not liable for any damages, injuries or incidents caused by incorrect usage of this device.

If you have any further questions regarding this product, please contact the Kogan.com customer support team.
