

Fluoro LED Watch Quick Start Guide

WARNING:

CHOKING HAZARD - Small parts and batteries. Not for children. Use with adult supervision only

Function Descriptions

- Tri-mode time display: time mode (hours/minutes), date (month/day) and seconds display.
- Startup Time: AM 12:00; Startup Date 2012 1.1
- 12 hour system ; Year 2000-2099
- 1 key operation
- LED auto-off after 8 seconds.

Operation

1. Touch the button (located by the B in the image above) and the LED animation will start. Time will display. It will display an animation after 5 seconds to remind you to turn off the LED display.
2. While the time is displayed, hold down the B button for 3 seconds to enter the time hour set. From here, hold the B button for three seconds to enter the time-minute set, then hold the B button three seconds again to enter the year set mode. To enter the month, hold the B button for 3 seconds to enter the settings, then you can hold the B button for a further three seconds to enter the day setting.
3. While in any of the time set modes described above, tap the B button quickly to adjust the value.
4. 5 seconds without operation automatically exit to the normal time display.
