

 **KOMODO**
Single Canvas Swag
KDSWGSNCANA
Quick Start Guide

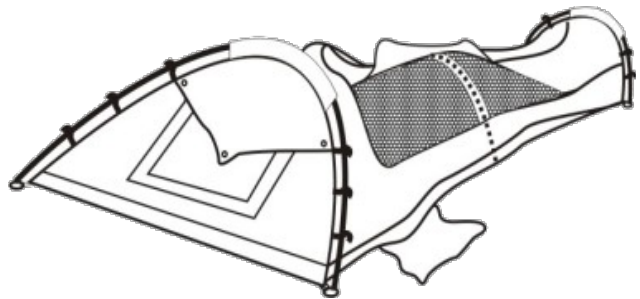

Usage

Step One: take swag out of the carton. Undo the straps then unroll the swag.

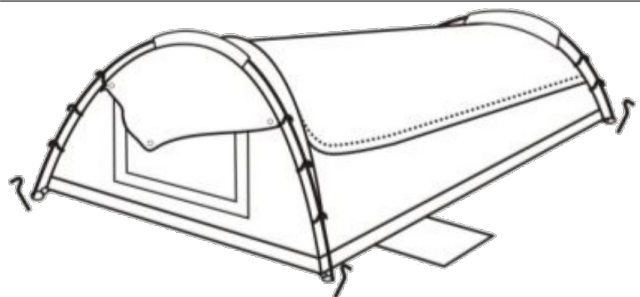

Step Two: open the pole bag which contains three poles.

1. The Head pole is the longest golden pole. Join the head pole together and slide through the sleeve at the head end of the swag. Insert the ring pin into the pole-end ferrules. Hook the C-clips onto pole.
2. The Foot pole is the shortest golden pole. Fit it at the foot end of the swag as you did the head pole.
3. The Mid pole is middle length silver pole. Insert the ring pin into the pole end ferrules, then attach the mid pole by velcro under the mesh panel.

Step Three: Clear sharp objects from the ground and make the area as flat as possible. Take out pegs, fix the pegs into the end ferrules on each corner. Please ensure the four corners are pulled tight.

Step Four: attach the guy rope to the head and foot storm flap eyelets. Use pegs to fix the ropes, then adjust the ropes to tighten.
