Please read this manual carefully before using the product and keep it properly.
Security Information

Restrictions

• This product is designed for indoor floor cleaning only. Please do not use it outdoors (such as an open-ended terrace), on any surface instead of the ground (such as a sofa), or in a commercial or industrial environment.

• Please do not use the product on any elevated surface without barriers (such as the floor of a loft, an open-ended terrace and the surface of furniture).

• Please do not use the product when the temperature is higher than 40°C or lower than 4°C, or there is any liquid or sticky substance on the floor.

• Before using the product, please put aside wires on the floor to avoid them being dragged around when the cleaner is working.

• To prevent the cleaner from being blocked whilst it is working and your valuables from any damage from slight crashes, please clean up fragile objects and odds and ends on the floor before switching on the cleaner (such as vases and plastic bags).

• This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety. Children should be supervised to ensure that they do not play with the appliance (CB).
Security Information

• This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision (EU)
• Please keep the main brush cleaning tools out of reach of children
• Do not place any object (including children and pets) on the cleaner, no matter whether it is working or not
• Keep hair, loose clothing, fingers, and all parts of body away from openings and moving parts
• Do not use the cleaner on any burning object (such as a burning cigarette butt)
• Do not use the cleaner on plush carpets (the cleaner might not work well on some dark-colored carpets either)
• Do not use the cleaner to clean hard or sharp objects (such as decoration wastes, glass and nails)
• Do not carry the cleaner by the cap on the distance laser sensor, the cover on the main unit or the collision buffer
Security Information

- The appliance must be switched off and the plug must be removed from socket-outlet before cleaning or maintaining the appliance
- Do not use a wet piece of cloth or any liquid to clean any part of the product
- Do not use the mopping module on carpets
- Please use the product according to the manual. Any loss or damage caused from improper use will be borne by the user

Battery and Charging

WARNING

- For the purposes of recharging the battery, only use the detachable supply Unit Roborock CDZ02RR provided with this appliance
- Do not arbitrarily dismantle, repair or modify the battery or dock charger
- Please keep the dock charger away from heat (such as heating plates)
- The battery must be removed from the appliance before it is scrapped
- The appliance must be disconnected from the supply mains when removing the battery
- The battery is to be disposed of safely. Please do not discard waste batteries. Leave them to a professional recycling organization
- Do not wipe or clean the chargers shrapnel with a piece of wet cloth or wet hands
Security Information

- If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard
- Please make sure the cleaner is powered off in shipment and original packaging is advised
- If left unused for a long period, please store the cleaner in a cool and dry place after having it fully charged and switched off, charge it at least every three months to avoid the battery being over discharged

Warranty Information

The manufacturer provides warranty in accordance with the legislation of the customer’s own country of residence, with a minimum of 1 year (Germany: 2 years), starting from the date on which the appliance is sold to the end user.
The warranty only covers defects in material or workmanship.
The repairs under warranty may only be carried out by an authorized service centre. When making a claim under the warranty, the original bill of purchase (with purchase date) must be submitted.
The warranty will not apply in cases of:
Normal wear and tear
Incorrect use, e.g. overloading of the appliance, use of non-approved accessories
Use of force, damage caused by external influences
Damage caused by non-observance of the user manual, e.g. connection to an unsuitable mains supply or non-compliance with the installation instructions
Partially or completely dismantled appliances

Laser Safety

The laser distance sensor of this product meets the standards for Class I Laser Products in IEC 60825–1:2014 and will not generate hazardous laser radiation
Product Introduction

Main Unit

Cleaning On/Off
- Short press to start cleaning.
- Press and hold to turn on or off.

Circular indicator light
- White: power ≥20%
- Red: power < 20%
- Slow blinking: charging or launching
- Red flash: fault status

Spot cleaning
- Short press to start regional cleaning.

Recharge
- Short press to start recharging.
  Note: Press any button to stop the robotic vacuum during cleaning, recharging, or spot cleaning

Reset Wi-Fi
- Press the spot cleaning button and the recharge button at the same time for 3 seconds

Open lid

Wall sensor

Side brush

Omni-directional wheel

Charging contact pieces

Main wheel

Main brush

Buckle of main brush cover

LDS* Laser distance sensor

Bumper

Cliff sensor
Product Introduction

Dust Bin

- Dust bin lid
- Dust bin buckle
- Filter
- Wi-Fi indicator light
  - Slow blinking: Waiting to connect
  - Fast blinking: Connecting
  - Stable light: Wi-Fi is connected
- System Reset button
- Speaker
- Air vent
- Cleaning tool of main brush

Accessories

- Water tank
- Dock charger
- Moistureproof mat
- Mopping cloth
- Power cable
# Installation

1. Plug the dock charger into the interface of the moistureproof mat, and make sure it’s firmly installed.

   ![Dock charger installation](image1)

   - This moistureproof mat can keep the floor dry

2. Keep the dock charger on a level surface, flat against a wall, plug into power outlet.

   ![Dock charger installation](image2)

   - More than 0.5 meters
   - More than 1.5 meters

   Note: Ensure to leave enough space to the dock charger (0.5 meters on both sides, more than 1.5 meters in the front).
   - It will cause unexpected power outages and/or dock charger displacement if the power cable is dragged by main unit accidentally due to disorganized placed.
   - The dock charger indicator is on after it’s plugged into power outlet, the indicator is off when main unit is being charged.

3. Turn on and charge the machine

   Press and hold the button (1) to turn on the main unit, wait until the indicator light is on for a while, then place the main unit on the dock charger to charge.

   ![Dock charger with main unit](image3)

   - The color of the circular light indicator refers to the quantity of electricity
     - White: power ≥ 20%
     - Red: power < 20%

   Note: Robotic vacuum cleaner may not be powered on when battery is low, connect the robotic vacuum cleaner to the dock charger.

4. Connect to the mobile phone client

   Search "Mi Home" in the App Store or scan the QR code to download and install the mobile phone client.
Installation

1. Install the mopping cloth: Wet the mopping cloth and wring it until it doesn't drip. Insert it into the bottom along the slot of the water tank and stick it firmly.

Note: If the mobile phone fails to connect to the cleaner, please refer to the “Instruction” – “Reset Wi-Fi” operation.

5. Install the mopping module
   1. Install the mopping cloth: Wet the mopping cloth and wring it until it doesn’t drip. Insert it into the bottom along the slot of the water tank and stick it firmly.

Note: Do not use the mopping module when no one is at home.

2. Fill the water tank: Open the tank lid, fill it with water, and put back the tank lid.

3. Install the module: Push in the module along the bottom of the main unit and follow the alignment mark on the mopping module. A click sound means it is installed properly.

Note: In order to achieve a better mopping effect, it is recommended to use the main unit to clean the floor three times before install the mopping module.
**Installation**

6 Start cleaning

When the circular indicator light on the main unit changes from slow blinking to stable, it means charging has completed. Briefly press button 🔄 or start cleaning through the mobile phone client.

7 Remove the mopping module

When the main unit is back on the dock charger after cleaning, press the buckles on both sides by hand, drag and remove the mopping module.

**Operating Instruction**

Main brush *Clean it every week as recommended

1. Turn over the machine, press the buckle and take off the cover.
2. Take out the main brush in an upwards movement and clean the bearing of the main brush.
3. Use the matching cleaning tool of the main brush to cut off the hairs entangled on the main brush.
4. Install the main brush, press tight the cover and fix the buckle.

Note: It is recommended to replace the main brush every 6–12 months so as to ensure it cleans effectively.

- Please use moistureproof mat if you put the dock charger on wood floor
- Remove tank when charging or not in use
Daily Maintenance

Instruction for using the cleaning tool of the main brush

Pour the water into the dust bin, close the dust bin cover, shake the dust bin left and right, pour out the dirty water, repeat this step several times, until the filter clean.

Note:
- Wash the filter by water only, detergents are not allowed to use.
- Please do not use finger or brush to clean the filter to avoid any possible damage.
- Please dry out the filter at least for 24 hours after washing.

Change of filter

Please remove the filter and replace it as shown in the picture.

Water tank filter element component
- It is recommended to replace it every 1–3 months
  1. Use your finger to remove the two filter element component from the gap.
  2. Fit the new filter element and make sure it is in the right place.

Note: It is recommended to replace the filter element component every 1–3 months so as to ensure effective cleaning
Daily Maintenance

Main Unit Sensor
Wipe the sensors of the main unit with a soft, dry cloth, including:
1. The four cliff sensors at the bottom of the main unit.
2. The wall sensor on the right side of the main unit.
3. The charging contact pieces at the bottom of the main unit.

Omni-directional wheel
* It is recommended to clean it every month
1. Turn over the machine and take out the Omni-directional wheel by pulling upwards.
2. Clean the hair and dirt off the wheel and the axle.
3. Install the wheel and press it tight.
Note: You may rinse it with tap water and install it after it gets dry

Dock Charger
* It is recommended to clean it every month.
Wipe the battery connectors of the dock charger with a soft, dry cloth.

Restore Factory Settings
If the machine does not function properly after resetting, please hold the button when the machine is on, and press the rest button at the same time, until you hear the voice prompt "start restoring the initial version", then the main unit has been restored to the factory settings.
