## 3 Pack TSA Luggage Lock ORTSA30LOKA

### Setting your own combination

Your new resettable combination padlock is preset to open at 0-0-0 (however the dials may arrive positioned at other numbers).

#### Step One

Turn the dials and align the numbers to 0-0-0 so they are clearly visible in the windows.

#### Step Two

Pull up the shackle and turn it 90° counter-clockwise to align the projection on the shackle with the notch on the lock body.

#### Step Three

Press the shackle all of the way down, hold it in position and turn the dials to your preferred new combination.

#### Step Four

Return the shackle back to the original position. Your personal new combination is now ready to use.

**Keep your combination in a safe, accessible location for future reference.**
