User Manual

- **Always use caution when handling sharp objects.**
- **Avoid cutting on hard surfaces such as stone, metal or glass.**
- **It is not advisable to use any knife except for a cleaver to cut through bone or frozen food, as the blades can be easily damaged.**
- **Hand-wash with warm water and a mild detergent. Rinse and dry immediately, then put the knife into the block.**
- **Use the honing steel only, usually once or twice a year with regular use.**
- **Sharpen your knives at home using a whetstone or knife sharpener when you feel that the knife has lost some of its original sharpness.**
- **Store the knives in a safe place to protect their edges and prevent injury.**
- **Store the block in a dry place.**
- **Keep away from children.**
