- To preserve the life of the batteries, discharge them by running the shaver until the shaver turns off. Do this every 6 months.
- Use the shaver only with the charging adaptor supplied.

SHAVING TIPS

- Your Remington WETech Precision Plus shaver is waterproof. You may use shaving foam or cream with your shaver. You may also shave in the shower.
- Always hold the shaver at a right angle to the skin so that all three heads are touching the skin with equal pressure.
- Stretch skin with the free hand so hairs stand upright, making it easier for them to enter the cutting chamber.
- Use moderate to slow, circular stroking movement. The use of short, circular motions in stubborn areas may obtain a closer shave, especially along the neck and chin line.
- Do not press hard against the skin to avoid skin irritation and/or damage to the rotary heads.

NOTE: We recommend that you use your new shaver daily for up to four weeks to allow time for your hair and skin to become accustomed to the new shaving system.

REPLACING THE HEAD & CUTTERS

It is very important to replace your head and cutters when necessary to ensure a close, comfortable shave without irritation. We recommend they be replaced every 12 months. Here are some signs of head and cutter wear, indicating that replacement is needed:

- **Irritation:** As the heads get excessively worn you may experience some skin irritation. This would be especially noticeable when you apply moisturizing lotion.
- **Pulling:** When the cutters wear you may feel a sense of pulling and a loss of closeness when you shave. This is an indication that it is time to replace your heads and cutters.

Replacement head & cutters may be obtained from your local retailer, or directly from Remington®. Simply fill out the enclosed accessory order form - refer to page 6 & 7, or alternatively your order can be processed over the phone via the Remington® Service Hotline - refer to page 10.
